Doing Sociolinguistics: A practical guide to data collection and analysis

Miriam Meyerhoff, Erik Schleeef, Laurel MacKenzie

Doing Sociolinguistics: A practical guide to data collection and analysis Miriam Meyerhoff, Erik Schleeef, Laurel MacKenzie

Doing Sociolinguistics: A practical guide to data collection and analysis provides an accessible introduction and guide to the methods of data collection and analysis in the field of sociolinguistics. It offers students the opportunity to engage directly with some of the foundational and more innovative work being done in the quantitative or variationist paradigm.

Divided into sixteen short chapters, *Doing Sociolinguistics*:

- can be used as a core text in class or as an easy reference whilst undertaking research
- walks readers through the different phases of a sociolinguistic project, providing all the knowledge and skills students will need to conduct their own analyses of language
- features excerpts from key research articles; exercises with real data from the authors' own research; sample answers to the exercises; and further reading
- is supported by the Routledge Sociolinguistics Companion website (www.routledge.com/textbooks/meyerhoff) which features further online exercises with sound files.

Designed to function as both a core text for methods classes in sociolinguistics and as a companion to the Routledge textbook *Introducing Sociolinguistics*, this book will be essential reading for all students studying and researching in this area.
