En 1973, los primeros exploradores europeos en recorrer el río Mississippi vieron en lo más alto de los escarpados riscos la pintura de un enorme monstruo alado ¿De dónde vendrá?

¿Por qué alguien hizo el esfuerzo y corrió el riesgo de pintar eso en el acantilado? Los indios les contaron la aterradora historia de una criatura semejante a un dragón que se comía a los hombres, y de cómo un valiente jefe lo mató.

Esta historia corta histórica fantástica, sobre el dragón nativo americano, publicada previamente en la revista Fantastic en diciembre de 1975, no ha estado disponible desde entonces... Hasta ahora.

Sabemos que historias y leyendas sobre dragones de Europa y Asia se remontan a miles de años. ¿Tomó como presas tal criatura a personas justo al norte de la actual St. Louis? ¿Un dragón en América del Norte?

Los exploradores franceses Pere Marquette y Joliet remaron sus canoas por el Padre de las Aguas, los primeros europeos en viajar por el centro del continente recién descubierto de América del Norte.

Vieron la pintura.

¿Por qué algún artista indio no identificado arriesgó su vida por crearla? Los acantilados perpendiculares se elevan a ciento de metros del río. Otros indios deberían haber bajado al artista en una cuerda desde la parte superior, y el dibujante colgaba por encima de las rocas de la orilla del río mientras trabajaba.

Canoas de indios guerreros pasaron a los exploradores en el río. A medida que se aproximaban a la pintura del monstruo volador parecido a un dragón, le dispararon flechas.

Una gran pérdida de buenas flechas, porque se rompían o rebotaban con la roca caliza blanca del acantilado y caían al río.

¿Qué es lo que asustaba tanto a los indios?
