Intelligent Management Support Systems Hossein Bidgoli

The proliferation of computers in business requires increased managerial expertise in decision support systems and expert systems. Managers, executives, and scholars will find this in-depth examination of the latest tools and technologies available for decision support invaluable. The book provides a clear and complete discussion of the foundations and management applications of decision support, expert systems, artificial intelligence, and other management support systems. Practical examples are provided throughout, giving the business professional a useful tool for evaluating and utilizing the variety of decision support and information technologies available. In addition, Bidgoli explores the growing field of applicable artificial intelligence, including expert systems, fuzzy logic, and neural networks. This book enhances expertise in a succinct, practical, and readable way.
