Textbook of Diabetes

Textbook of Diabetes

Over three editions the *Textbook of Diabetes* has built a reputation as a book that is extremely well-organized and easy to navigate, with exceptional illustrations and an excellent blend of clinical and scientific content. Previously edited by John Pickup and Gareth Williams this fourth edition has four brand new editors from across the globe.

The editors have assembled an outstanding set of international contributors who provide insight on new developments in diabetes care and information on the latest treatment modalities used around the world.

The new *Textbook of Diabetes* has been restructured into 12 parts in one accessible volume and is designed with the busy diabetes care team in mind. As well as retaining the elements that have made it such a popular brand, such as the outstanding full colour illustrations and text design, the new edition sees even greater emphasis on the clinical aspects of diabetes, with new chapters on managing patients with diabetes, the treatment of diabetes, and the delivery and organization of diabetes care, including:

- Non-insulin parenteral therapies
- New technologies for insulin administration and glucose monitoring
- The role of the multidisciplinary team

There is also a companion website accompanying the book containing essential bonus material such as:

- Over 150 interactive MCQ's to help you improve and test your clinical knowledge
- All 500 figures from the book in a downloadable format to use in slides and presentations
- Chapter pdfs and chapter references with full links to PubMed

If you want a modern, well-illustrated, international guide to diabetes this is the ideal reference book for you.

From reader reviews:

James Snyder:

Do you have favorite book? If you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each e-book has different aim or goal; it means that reserve has different type. Some people feel enjoy to spend their time to read a book. They can be reading whatever they have because their hobby will be reading a book. What about the person who don't like studying a book? Sometime, individual feel need book after they found difficult problem or exercise. Well, probably you'll have this Textbook of Diabetes.

Vera Gates:

What do you consider book? It is just for students because they're still students or it for all people in the world, the actual best subject for that? Only you can be answered for that problem above. Every person has various personality and hobby per other. Don't to be compelled someone or something that they don't wish do that. You must know how great as well as important the book Textbook of Diabetes. All type of book are you able to see on many options. You can look for the internet methods or other social media.

Nick Peoples:

Information is provisions for folks to get better life, information currently can get by anyone at everywhere. The information can be a know-how or any news even an issue. What people must be consider if those information which is in the former life are challenging be find than now is taking seriously which one is acceptable to believe or which one the resource are convinced. If you obtain the unstable resource then you have it as your main information there will be huge disadvantage for you. All of those possibilities will not happen within you if you take Textbook of Diabetes as the daily resource information.

Ella McCoy:

Are you kind of hectic person, only have 10 or 15 minute in your moment to upgrading your mind skill or thinking skill also analytical thinking? Then you are experiencing problem with the book than can satisfy your limited time to read it because pretty much everything time you only find publication that need more time to be learn. Textbook of Diabetes can be your answer because it can be read by you who have those short extra time problems.
