Grafología psicológica (PSICOLOGÍA) (Spanish Edition) Manuel J. Moreno

La Grafología constituye hoy en día un método serio, lúcido y lleno de posibilidades para el abordaje y aproximación al universo anímico y conductual de las personas a través del estudio y análisis de su escritura manuscrita, y en general, de cualquiera de sus producciones gráficas -firma, dibujos...- Grafología Psicológica es un libro destinado a acompañar desde un principio al lector interesado en esta técnica científica por los fundamentos en que se basa la interpretación grafológica, una aproximación clara y estimulante a través del discurso gestual y simbólico que involuntariamente -inconscientemente- escenificamos al escribir. Adentrarse en el sorprendente mundo de la ciencia grafológica, constituye una aventura de la que nadie sale con las manos vacías. Un tesoro de representaciones simbólicas alusivas a los pilares actitudinales del escribiente, así como manifestaciones variopintas de los entresijos más insospechados de su personalidad, nos mostrarán a cada paso que lo que somos, que todo aquello que nos caracteriza y define, emerge una y otra vez de manera franca y directa en nuestros gestos y expresiones no verbales. La Grafología actual, es una técnica capaz de ir más allá de los mecanismos de enmascaramiento con que revestimos nuestra personalidad, nuestra persona -la máscara del actor- y posibilita un diálogo fructífero con las estructuras inconscientes que soportan nuestros valores y actitudes fundamentales en el siempre cambiante pero representativo escenario de nuestra circunstancia vital.
