This textbook deals with current theories of the management of people employed in schools and colleges, recent developments and emerging trends. The authors focus on issues relevant to the whole organization and the specifics of managing a school or college and its employees. They also cover the application of good practice to management processes such as selection, induction, performance management, appraisal and staff development.

It is relevant to teachers and managers working in schools of all phases, and in further education colleges, including those aspiring to more senior positions. It is also directly relevant to the requirements of the NPQH.
