SAMPLE EXCERPT: AN EXPERIMENT ON THE STREET...

Excerpt from the chapter "A simple experiment on the street" in the third instructional part (page 16):

... if you would like to test the power of your thoughts using the technique of building up thoughts - as explained clearly in the 2nd part - carry out the following experiment out on the street:

Look calmly and fixedly at the back of the head of a person walking in front of you (at a distance of between 6 metres and 25 metres).

Together with the thoughts that you have already built up inside yourself, visualise the person in front of you turning their head towards you. The more you have built up your thoughts, and the more vividly and strongly you imagine the person to be turning their head, the faster your success will be.

Don't make any noise whatsoever. No coughing or clearing your throat, and don't make your footsteps become heavier. The connection may only take place through your thoughts and through your imagination ...

Try it yourself and you'll be amazed as, with a sufficient build-up of thoughts, this and similar experiments have a high rate of success.
