## **Responding to Conflict in Africa: The United Nations and Regional Organizations**

Africa has been the source of some of the international community's most devastating failures and important successes in conflict management. The purpose of this book is to examine the issues and experiences associated with the increased level of activity between the United Nations and regional organizations in their efforts to address conflict in Africa. Using nine case studies and an overview of recent changes at the institutional level this book assesses what these experiences tell us about the United Nations, about African regional organizations, and about conflict management processes.
