Educating Learning Technology Designers: Guiding and Inspiring Creators of Innovative Educational Tools

Educating Learning Technology Designers: Guiding and Inspiring Creators of Innovative Educational Tools

What knowledge and skills do designers of learning technologies need? What is the best way to train them to create high-quality educational technologies? Distilling the wisdom of expert instructors and designers, this cutting-edge guide offers a clear, accessible balance of theory and practical examples.

This cutting-edge guide:

- synthesizes learning, instructional design, and educational technology perspectives on learning-centered technology — highlighting how interdisciplinary work is driving the fields of the learning sciences and technology design and development
- offers helpful resources for both faculty and students — including descriptions of a variety of successful courses in learning technology design, examples of student work with commentary by instructors and students, and discussions of "lessons learned" in course development
- includes a "To the Student" chapter that speaks in plain language about what is exciting and challenging about creating technology for kids

Directed to university instructors working with students on developing educational software projects and to managers leading learning technologies development teams, this book is a valuable resource for guiding and inspiring the next generation of designers of learning technologies.
