Wireless Hacking: Projects for Wi-Fi Enthusiasts: Cut the cord and discover the world of wireless hacks! Lee Barken

Sales of wireless LANs to home users and small businesses will soar this year, with products using IEEE 802.11 (Wi-Fi) technology leading the way, according to a report by Cahners research. Worldwide, consumers will buy 7.3 million wireless LAN nodes--which include client and network hub devices--up from about 4 million last year. This third book in the "HACKING" series from Syngress is written by the SoCalFreeNet Wireless Users Group and will cover 802.11a/b/g ("Wi-Fi") projects teaching these millions of Wi-Fi users how to "mod" and "hack" Wi-Fi access points, network cards, and antennas to run various Linux distributions and create robust Wi-Fi networks.

Cahners predicts that wireless LANs next year will gain on Ethernet as the most popular home network technology. Consumers will hook up 10.9 million Ethernet nodes and 7.3 million wireless out of a total of 14.4 million home LAN nodes shipped. This book will show Wi-Fi enthusiasts and consumers of Wi-Fi LANs who want to modify their Wi-Fi hardware how to build and deploy "homebrew" Wi-Fi networks, both large and small.

* Wireless LANs next year will gain on Ethernet as the most popular home network technology. Consumers will hook up 10.9 million Ethernet nodes and 7.3 million wireless clients out of a total of 14.4 million home LAN nodes shipped.

* This book will use a series of detailed, inter-related projects to teach readers how to modify their Wi-Fi hardware to increase power and performance to match that of far more expensive enterprise networking products. Also features hacks to allow mobile laptop users to actively seek wireless connections everywhere they go!

* The authors are all members of the San Diego Wireless Users Group, which is famous for building some of the most innovative and powerful "home brew" Wi-Fi networks in the world.

From reader reviews:

Willie Wilson:

Book is usually written, printed, or outlined for everything. You can learn everything you want by a e-book. Book has a different type. To be sure that book is important issue to bring us around the world. Alongside that you can your reading ability was fluently. A guide Wireless Hacking: Projects for Wi-Fi Enthusiasts: Cut the cord and discover the world of wireless hacks! will make you to possibly be smarter. You can feel considerably more confidence if you can know about anything. But some of you think this open or reading any book make you bored. It is far from make you fun. Why they can be thought like that? Have you trying to find best book or suitable book with you?

Sharon Clayton:

Now a day folks who Living in the era just where everything reachable by interact with the internet and the resources in it can be true or not demand people to be aware of each info they get. How a lot more to be smart in having any information nowadays? Of course the correct answer is reading a book. Reading through a book can help folks out of this uncertainty Information particularly this Wireless Hacking: Projects for Wi-Fi Enthusiasts: Cut the cord and discover the world of wireless hacks! book because book offers you rich information and knowledge. Of course the info in this book hundred per-cent guarantees there is no doubt in it you probably know this.

Marjorie Ishee:

This Wireless Hacking: Projects for Wi-Fi Enthusiasts: Cut the cord and discover the world of wireless hacks! is fresh way for you who has fascination to look for some information since it relief your hunger associated with. Getting deeper you on it getting knowledge more you know otherwise you who still having small amount of digest in reading this Wireless Hacking: Projects for Wi-Fi Enthusiasts: Cut the cord and discover the world of wireless hacks! can be the light food for you personally because the information inside this particular book is easy to get by simply anyone. These books develop itself in the form which is reachable by anyone, yeah I mean in the e-book form. People who think that in guide form make them feel sleepy even dizzy this guide is the answer. So there is absolutely no in reading a book especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss the idea! Just read this e-book kind for your better life and also knowledge.

Robert Burmeister:

Reserve is one of source of understanding. We can add our understanding from it. Not only for students but also native or citizen require book to know the up-date information of year to year. As we know those books have many advantages. Beside all of us add our knowledge, can also bring us to around the world. By book Wireless Hacking: Projects for Wi-Fi Enthusiasts: Cut the cord and discover the world of wireless hacks! we can take more advantage. Don't you to be creative people? Being creative person must want to read a book.

Just choose the best book that ideal with your aim. Don't end up being doubt to change your life at this time book Wireless Hacking: Projects for Wi-Fi Enthusiasts: Cut the cord and discover the world of wireless hacks!. You can more attractive than now.
