Timber Construction Manual, 4th Edition

American Institute of Timber Construction (AITC)

Timber Construction Manual, 4th Edition American Institute of Timber Construction (AITC)

The definitive design and construction industry source for building with wood—both sawn lumber and structural glued laminated timber. This edition contains the latest design procedures for timber construction. Information and recommendations are based on the most reliable technical data available and reflect commercial purposes found to be most practical. Revised to cover the 1991 National Design Specification for Wood from the National Forest Products Association, it includes annual supplements which will keep subscribers current with performance data, design criteria, sample specifications and other vital material between editions.
