Language and Historical Representation: Getting the Story Crooked (Rhetoric of the Human Sciences) Hans Kellner

“This may well be the most important contribution to the linguistically informed study of historiography since Hayden White’s *Metahistory*. Looking at historical texts, Kellner is able to show us that they are more complex, and bear a more complicated relationship to reality, than we think. His scholarship is not only sound but is on the cutting edge or recent reflection on historiography. . . . The insights, not rarely, are stunning.”—Allan Megill, University of Iowa
