Lyrical words and lush, naturalistic paintings introduce children to the tropical rain forest and the animals that live within its wet, green world. From swinging monkeys and upside-down-hanging sloths to graceful caimans and stalking jaguars, Here Is the Tropical Rain Forest envelops young readers in a stunning jungle while teaching them an important lesson about the ecosystem. Madeleine Dunphy's rhythmical, cumulative text shows how each plant and animal of the rain forest is inextricably linked with the others in a chain of life. Michael Rothman's deeply hued and shadowed paintings brilliantly evoke this singular environment.
