Nonlinear Optimization Applications Using the GAMS Technology: 81 (Springer Optimization and Its Applications)

Neculai Andrei

Nonlinear Optimization Applications Using the GAMS Technology: 81 (Springer Optimization and Its Applications) Neculai Andrei

The purpose of this book is to develop a wide collection of nonlinear optimization applications from the real-world expressed in the GAMS (General Algebraic Modeling System) language. The book is designed to present these applications in a very general form in such a way so that they could be very easily and quickly understood, updated, or modified to represent real situations from the real-world and is suitable for scientists working in various disciplines that use optimization methods to model and solve problems as well as mathematical programming researchers, operations research practitioners, and management consultants. This book is well suited as additional material for courses in optimization, operations research, decision making, and more. Modeling language in mathematical optimization supports symbols and nonlinear or differential expressions used in descriptions of optimization problems including the concepts of parameters, variables, constraints, and objective functions. Therefore, algebraic oriented modeling languages are the ones used in mathematical optimization systems.

From reader reviews:

Luke Palmieri:

The e-book with title Nonlinear Optimization Applications Using the GAMS Technology: 81 (Springer Optimization and Its Applications) possesses a lot of information that you can understand it. You can get a lot of profit after read this book. This particular book exist new know-how the information that exist in this reserve represented the condition of the world right now. That is important to yo7u to be aware of how the improvement of the world. This book will bring you in new era of the globalization. You can read the e-book with your smart phone, so you can read the item anywhere you want.

Nicole Williams:

Are you kind of active person, only have 10 or perhaps 15 minute in your time to upgrading your mind talent or thinking skill possibly analytical thinking? Then you are experiencing problem with the book in comparison with can satisfy your small amount of time to read it because pretty much everything time you only find book that need more time to be go through. Nonlinear Optimization Applications Using the GAMS Technology: 81 (Springer Optimization and Its Applications) can be your answer given it can be read by you who have those short extra time problems.

Benjamin Herrera:

The book untitled Nonlinear Optimization Applications Using the GAMS Technology: 81 (Springer Optimization and Its Applications) contain a lot of information on the item. The writer explains the girl idea with easy technique. The language is very clear and understandable all the people, so do not worry, you can easy to read it. The book was authored by famous author. The author will bring you in the new time of literary works. It is possible to read this book because you can please read on your smart phone, or device, so you can read the book within anywhere and anytime. In a situation you wish to purchase the e-book, you can start their official web-site as well as order it. Have a nice learn.

Marilynn Johnson:

Is it anyone who having spare time then spend it whole day by simply watching television programs or just telling lies on the bed? Do you need something totally new? This Nonlinear Optimization Applications Using the GAMS Technology: 81 (Springer Optimization and Its Applications) can be the answer, oh how comes? A book you know. You are thus out of date, spending your time by reading in this fresh era is common not a nerd activity. So what these guides have than the others?
