Interpreting Islam (Politics and Culture series)

`**Interpreting Islam** is a useful contribution in the field of Islamic studies, not because of the questions it happens to answer - not too many - but because it helps one understand why some of the questions are at all posed' - *Kingshuk Chatterjee, The Statesman*

Islam is one of the most misunderstood concepts in the West. Myths and stereotypes surround it. This clear and penetrating volume helps readers to make sense of Islam. It offers a penetrating guide to the diversity and richness of contemporary knowledge about Islam and Muslim society. Throughout, the emphasis is upon the value of pluralistic approaches to Islam, rather than condensing complexity with unifying concepts such as `Orientalism'.

Interdisciplinary in scope and organization, the book cuts through the bewildering and seemingly anarchic diversity of contemporary knowledge about Islam and Muslim society. The methodological difficulties and advantages of Western researchers focusing on Islam are fully documented. The book demonstrates how gender, age, status and `insider'/'outsider' status impacts upon research and inflects research findings.
